

## **Greenhouse Gas Reduction (GGR) Plan Our Commitment to Sustainability**

At Daisy Data Displays, we've been dedicated to protecting the environment since our inception more than 30 years ago. Now, throughout the United States and all over the world, our products and services enable customers and communities to utilize less energy and save resources.

Sustainability is a necessary part of our vision and values. Our environmental efforts are carried out with the following objectives in mind:

- Supporting our company's growth and exceeding our customers' increasing expectations for more sustainable products and services.
- Improving our operational efficiency, including lowering costs and reducing the environmental footprint of our operations and supply chain.
- Increasing awareness with our vendors on environmental issues.

### Our commitments are as follows:

#### Technologies:

- Encourage energy conservation through the use of programmable thermostats, automated lighting and LED's.
- Conduct energy audits of buildings, evaluate potential conservation measures, and then carry out those measures that are appropriate.
- Provide weatherization to buildings where appropriate.

#### Employee Oriented Policy Details:

- Encourage ride-sharing, van-pooling and the use of flex-time schedules by employees.
- Provide public recognition of effective programs through awards, top ten lists, and other mechanisms.
- Encourage energy conservation practices in buildings by raising the awareness of employees own energy use.

#### Fleet & Vehicle Policy Details:

- Frequent tuning and maintenance of vehicles, and the use of refined motor oil in company vehicles.

#### Equipment Oriented Policy Details:

- Manage street lighting needs by applying lighting standards and using lamps that will assure safe and effective illumination at minimum cost and energy use.

#### Waste Reduction & Use Oriented Policy Details:

- Implement a solid waste strategy which:
  - ✓ Reduces the solid waste stream by recycling and other means
  - ✓ Promotes the purchase of recycled and recyclable goods

We create a measurable added value for Daisy by combining economic principles with environmental concerns. In doing so, we continue the goal of reducing our impact on the environment.
